Frequently Asked Questions (FAQ)

Q1: How often should I clean my Boulevard S40 hair dryer?

A1: Regular cleaning is essential to maintain performance and longevity. Clean the air intake and outlet vents after each use to remove hair and debris. A soft brush or compressed air can be used for this purpose.

Q2: Can I use the Boulevard S40 on wet hair?

A2: While the Boulevard S40 can handle damp hair, it's best to towel-dry your hair thoroughly before using the dryer. Drying soaking wet hair can take significantly longer and potentially damage your hair.

Q3: What are the different heat and speed settings on the Boulevard S40 for?

A3: The multiple heat and speed settings allow for customized drying. Low heat and speed are ideal for fine or damaged hair, while high heat and speed are better for thicker, more resilient hair. Consult the Boulevard S40 manual for specific recommendations based on your hair type.

Q4: What is the difference between the concentrator nozzle and the diffuser attachment?

A4: The concentrator nozzle focuses the airflow for precise styling, ideal for straightening or creating sleek looks. The diffuser attachment disperses the airflow, ideal for drying curly or wavy hair without causing frizz.

Q5: My Boulevard S40 is making a strange noise. What should I do?

A5: Strange noises can indicate a problem. Check the Boulevard S40 manual's troubleshooting section or contact customer support. The noise might be caused by debris in the air intake or a more serious internal issue.

Q6: Where can I find replacement parts for my Boulevard S40?

A6: Replacement parts can usually be found through the manufacturer's website or authorized retailers. Contacting customer support can help you locate the appropriate parts and determine if a repair is necessary.

Q7: Is the Boulevard S40 suitable for all hair types?

A7: Yes, the adjustable heat and speed settings, combined with the attachments, make the Boulevard S40 adaptable to various hair types and textures. However, always prioritize using the lowest appropriate heat setting to prevent heat damage.

Q8: What are some tips for achieving salon-quality results with my Boulevard S40?

A8: Achieving salon-quality results requires practice and an understanding of your hair type. Experiment with different settings and attachments, using sectioning techniques to ensure even drying and styling. Use heat protectant sprays for added protection. Watching professional hair styling videos can also improve technique.
