A Synopsis of Wonder and its Central Character

Wonder follows Auggie Pullman, a ten-year-old boy born with Treacher Collins syndrome, a condition that significantly affects his facial features. For the majority of his life, Auggie has been homeschooled by his mother, Isabel. However, his parents decide it's time for him to attend Beecher Prep, a mainstream private school, marking a significant turning point in his life. The novel unfolds through Auggie's perspective, interspersed with chapters from the points of view of his classmates, family, and friends, offering a multifaceted portrait of his experiences and the impact he has on those around him. The story intricately weaves together these diverse narratives, providing a comprehensive understanding of the complexities of human interaction and the challenges of navigating social dynamics.

It challenges readers to examine their own biases and prejudices and to actively choose empathy and understanding over judgment and exclusion. **Bullying**, in all its forms, is directly confronted, prompting readers to consider its devastating consequences and the crucial role of bystanders in preventing and combating it.

- **Empathy and Perspective-Taking:** The inclusion of multiple perspectives is a masterstroke. We see the challenges Auggie faces, but we also witness the struggles and perspectives of his classmates, including Julian, who initially bullies him, and Summer, who bravely befriends him. These choices underscore the book's central message: we are not defined by our circumstances but by the choices we make.
